Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The amendment filed on July 2, 2001 in Paper No. 6 is acknowledged and has been entered.
2. Claims 1-37 are pending in the application and are currently subject to restriction.

Election/Restrictions

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
Groups 1-47. Claims 1-37, drawn to a composition comprising an epitope consisting of an amino acid sequence selected from the group consisting of SEQ ID NO: 6823-6869, classified in class 424, subclass 277.1.

Note: Applicant is directed to elect one (1) of the 47 different inventions to which the claims are drawn by specifically identifying one of the epitopes disclosed in Table XXIV of the specification using the corresponding SEQ ID NO.

4. The inventions are distinct, each from the other because of the following reasons:
Inventions in groups 1-47 are disclosed as biologically and chemically distinct, unrelated in structure and/or function, and/or made by and/or used in different methods, which differ at least in objectives, method steps, reagents and/or doses and/or schedules used, response variables, assays for end products and/or results, and criteria for success; therefore, the claimed products are distinct.

5. Because these inventions are distinct for the reasons given above and since the search required for any one group is not required for any other group, restriction for examination purposes as indicated is proper.

6. This application contains claims directed to the following patentably distinct species of the claimed invention:

Currently, claims 14 and 30 are generic. Claims 14 and 30 are drawn to patentably distinct species of invention wherein the one or more peptides comprise less than 50 contiguous amino acids that have 100% identity with a native peptide sequence of (a) prostate-specific antigen (PSA), (b) prostate-specific membrane antigen (PSM), (c) prostatic acid phosphatase (PAP), or (d) human kallikrein 2 (HuK2).

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, i.e., (a), (b), (c), or (d) for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

7. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

8. Upon the allowance of a generic claim, Applicants will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, Applicants must indicate which are readable upon the elected species. MPEP § 809.02(a).

9. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Application/Control Number: 09/633,364

Art Unit: 1642

10. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

11. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

12. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen L. Rawlings, Ph.D. whose telephone number is (703) 305-3008. The examiner can normally be reached on Monday-Thursday, alternate Fridays, 8:00AM-5:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Anthony C. Caputa, Ph.D. can be reached on (703) 308-3995.
